

**You can do it!**

*How to spend this year  
writing the novel you've  
always wanted!*

1. Get an idea and make  
sure it has legs!

2. Don't think too far ahead!  
Take it one chapter at a time!

3. Write for you!  
Write what you want!

*4. You'll think it's rubbish,  
but that's perfectly normal!*

*5. Remember, you're telling  
yourself  
the story first  
and you'll edit after.*

*6. Just go day by day, chapter by  
chapter...*

and before you know it,  
you'll have a whole damn  
book!!
